

Tradition and Progress – Railways in the Digital Age **Budapest, 12-14 November, 2019**

Dear Partners,

We are pleased to call your kind attention to **a railway professional conference** to be held in **Budapest between November 12-14**.

The **Innorail conference** has been a biannual event, to be held already the fourth time by Hungarian railway professionals. As a new initiative the organisers have invited a new section for the first time, called **V4+9 Cross-Border InnoRail**. The section will be a two-day event, to be held between **November 13-14**.

The organisers have invited for a professional exchange of ideas the leading professionals of the railway operators from the V4 countries, the EU member states in our region and the states of the Western Balkans so that they can share the challenges they face, the results they have achieved, and should share their ideas regarding the developments ahead of us in the region.

The agenda will feature the following topic: the high-speed railway link between the V4 countries, guest speakers will be invited from the British, German and French high-speed railways. There will be talks about the reconstruction of the Budapest-Belgrade railway line as well.

Outside Hungary, professionals from the following countries will be invited: Czech Republic, Poland, Slovakia, Croatia, Serbia, Albania, North Macedonia, Montenegro, Bosnia-Herzegovina, Kosovo, Slovenia, Romania, Bulgaria, Latvia, Lithuania, Estonia, Austria.

Official conference languages: **English, Hungarian and (for the first time) German**.

In addition to the invited guests (infrastructure and vehicle operators) the representatives of the railway industry, researchers, designers, theoretical and practical experts as well are most welcome to the conference.

For our partners the organisers will give the opportunity to pay a **reduced participation fee**:

For 3 days instead of € 370 our partners can register for € 300 + 27% VAT, for two days in the V4+9 section for € 200 + 27% VAT.

Please send your request for participation to us **(name and e-mail address)**, we will forward it to the organisers so that you can get your reduced participation fee.

We are recommending to our industrial partners to look at the **exhibition opportunities** as well, there are still have some free stands, where you can put your products and services on display: <http://innorail2019.hu/en/exhibition/>

The details of the venue and the program are available on the website of the conference:
